## RIVER FALLS PUBLIC LIBRARY

June 30, 2003

To Whom it May Concern:

Magical Paul has performed at the River Falls Public Library two times in the past four years, each time performing for audiences of well over 125 children and parents. The audiences were of varied ages, and Magical Paul kept them all entertained, engaged and enthused. He held their attention during the entire performance, and many "wows", "oohs" and "aaahs" could be heard coming from the crowd.

In addition to my impressions, I can share some of the comments made by parents and kids. One parent commented that he was the best magician they had ever seen. Another commented that her five year old was enthralled. A group of 8 year olds told me that magical Paul was "awesome". Many kids asked if I knew how he performed the final magic trick.

I would certainly highly recommend Magical Paul, and would invite him to perform at our library another time. He's a great entertainer appropriate for all ages of kids.
