Dear Paul:

Thank you for the entertainment you provided at our Mother Daughter Social earlier this month. Your performance was wonderfully refreshing.

Many adults approached me that evening to ask "where I found you" and to say how much they enjoyed your program. The children, of course, spoke for themselves with squeals of laughter and absolute attention.

Please feel free to use us as a reference as we would highly recommend you to anyone looking for professional entertainment at a special event.

Thank you again for a great evening.
