Dear Mr. Steger:

I want to thank you for providing the students, staff, and parents of St. Mary's School with a fascinating magic show during our celebration of Catholic Schools Week. I wanted something special for that afternoon and your magic held them spellbound. Many of the parents and students commented after the program that they were amazed by your magic. A number of the students and parents approached you to find answers to your magic feats; of course, they went away puzzled because no artist is going to give away his trade secrets.

It was a refreshing and enjoyable afternoon thanks to your magic show. We would welcome your show back again.

Sincerely,

*Thomas Walsh*
