Dear Paul,

We enjoyed having you perform at our Fall Festival. We have had mostly positive response to the Magic Show. It appeared to me that adults as well as children enjoyed the show. We did get a few written responses afterwards and they all mentioned loving the Magic Show.

The one and only critical response was from a parent of a very young child who thought that the show was not geared a lot to the very young. We understand that with such a mix of age, the huge number of participants and the limited time allotted that it was very difficult to make every one absolutely happy.

We also appreciate your flexibility, since things did not go exactly as we planned. Numbers were much larger than planned and movement of the crowds was difficult. I think we all made the best of it!

Sincerely,

Debbie Tierney
